- Denisse Moreno, Clinical Psychologist M.A.
- Yu Yamamoto, Psychologist M.S.

Following services are available in English and Japanese (Counseling is also offered in Spanish)

Psychological Assessment

Services	Descriptions
Cognitive Assessment	Use of intelligence tests to determine IQ, cognitive strengths and weakness, intellectual giftedness, and intellectual disorders. Approximately 7 hours
Academic Assessment	Use of academic tests, cognitive tests, questionnaires and interviews to determine academic performance in areas such as Reading, Writing, Mathematics and other related areas. Approximately 20-25 hours
Diagnostic Assessment	Full assessment of cognitive, behavioral, emotional and developmental areas to determine strengths and weakness in children. Additional tests are selected to determine diagnostic traits. Approximately 20-25 hours

Fees for Assessment:

The total fee would be determined by the number of hours used in the evaluation process. The base fee is 10,000 yen per hour. The number of hours will depend on each individual case and the total fee will vary accordingly. The estimated range for a full evaluation is usually between 200,000 and 250,000 yen (Approximately 20 and 25 hours).

*All services are subjected to 10% consumption tax

Please do not hesitate to reach out for more information!

Steps	
1	Referral from teachers/ identification of difficulties by parents
2	Initial meeting with psychologist (parents only)
