Following services are available in English and Japanese (counseling is also offered in Chinese, French)

Psychological Assessment

Services	Descriptions
Cognitive Assessment	Use of intelligence tests to determine IQ, cognitive strengths and weakness, intellectual giftedness, and intellectual disorders. Approximately 8 hours inclusive of intake and feedback session.
Academic Assessment	Use of academic tests, cognitive tests, questionnaires and interviews to determine academic performance in areas such as Reading, Writing, Mathematics and other related areas. Approximately 25-33 hours inclusive of intake and feedback session.
Diagnostic Assessment	Full assessment of cognitive, behavioral, emotional and developmental areas to determine strengths and weakness in children. Additional tests are selected to determine diagnostic traits. Approximately 25-33 hours inclusive of intake and feedback session.

Assessment Fees:

The total fee would be determined by the number of hours used in the evaluation process. The base fee is JPY12,650 per hour (inclusive of tax). The number of hours will depend on each individual case and the total fee will vary accordingly. The estimated range for a full evaluation is usually between JPY316,250 ~ 417,450(Approximately 25 and 33 hours). Alternative assessment packages are also available depending on the client's needs. Please feel free to consult our psychologist for the package that best suits your needs.

*Inclusive of 10% consumption tax.
